Grant P. Holzemer

grantholzemer@gmail.com | (703) - 677 - 7288 | grantholzemer.com | linkedin.com/in/GrantHolzemer/

Languages & Skills

Angular, AWS, Azure, C++, Git, Java, PHP, Python, REST APIs, SQL, TypeScript
Secret Clearance - Active - DoD

Experience

Amazon (AWS) - EC2 VPC | June 2023 - August 2023
Software Developer Engineer Intern (L4)

- Implemented 4 APIs to support a new customer facing feature in the EC2VPC Security-Group team set to launch in 2024
- The published feature will affect millions of network admins who utilize custom Security-Groups within their VPCs
- Utilized a POC written by a Principal Engineer to engineer the APIs to be extremely low latency, ~50% decrease in runtime, via using PartiQL in our API Orchestration framework
- Tested end-to-end with a custom internal Scala framework, validating accuracy of the APIs, after deployment
- Completed the project 1 month ahead of milestones therefore, worked on a stretch goal which consisted of updating 2 other public facing APIs (DescribeSecurityGroups) to comply with the new feature
- APIs developed with Java, XML, SQL, YAML, Ruby, and Scala (along with JUNITs, Mockito, and internal metric tools)

WVU Athletics | August 2022 - April 2023
Software Developer Intern - Unpaid

- Worked with a team to develop a IOS app for the WVU athletic department which allows them to track football players rehabilitation process post-injury (Agile)
- Implemented the REST-API in PHP: Session-Tokens/Authentication, OOP, HTTP methods, DB maintenance
- Reiterated the database architecture to support many-to-many table relationships and support session management
- Hosting biweekly meetings with the customer to inform/allow-for-feedback of our progress
- Architected the components of the application utilizing React Native, RESTful APIs, Microsoft SQL on Azure servers

Raytheon Intelligence & Space | May 2022 - August 2022
Software Engineer Intern

- Engineered a cross-platform application (Electron) for tracking more than 3000 active/ decayed commercial satellites
- Implemented with Python, Electron, Angular, MySQL, REST-APIs, hosted on AWS's GovCloud
- Implemented another interns Matlab scripts (via powershell) so that constellations of satellites, and/or selected objects (debris) could be sent into a internal simulating application from the front-end UI for modeling satellite communications
- Iterated the application to interact with local versions of the internal simulator, the original application was intended to be a website but later was wrapped in electron which allows tunneling to local user applications via NodeJS
- Added server-side STK processing to keep the satellite models in the MSA shared drive updated automatically
- Helped construct/implement a change detection model to detect unusual movements in a satellites orbit (Matlab)

Locked Shields NATO Exercise | October 2021 - April 2022
Linux & Windows Security Analyst and Incident Response - E4 Pay by 601st

- Monitored up to 5 Linux servers and 3 Windows servers for unusual activity with Crowdstrike
- Automated server applications deployment with Ansible

Interstate Van Lines | December 2021 - January 2022
Administrative Assistant Intern

- Archiving and cataloging of email databases.

Personal Projects

Graphical Resume Application | Created a component based graphical resume builder with Angular, Typescript, & Firebase
AI Life Advisor Tool | Fine tuned an OpenAI Davinci model to give life advice. Trained on large data. Hosted on AWS EC2.
Personal Website | github.com/gholzemer/coffee | Angular, Bootstrap, Firebase

Education

West Virginia University | Morgantown, WV | May 2023
Bachelor of Science: *Computer Science*
Magna Cum Laude | GPA: 3.78 / 4.0
Concentration: *Software Engineering*

Relevant Coursework: Algorithms, File and Data Structures, Advanced Software Engineering, Web Application Design Computer System Concepts, Computer Communications, Intro to Computer Architecture, AI/ML

Military Experience

Basic Combat Training | January 2021 - March 2021
Advanced Individual Training | March 2021 - June 2021
E4 - Specialist - 91D - 601st Engineer Support

Awards & Accomplishments

Certificate of Recognition by Governor Jim Justice
CyberWVU - Executive Coordinator
Outstanding Foundation Senior
